CSR & SUSTAINABLE DEVELOPMENT

GENERAL PILLARS

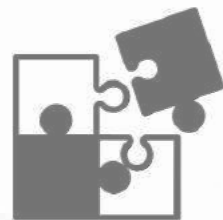

Planning long-term goals in our Company is closely connected with the guidelines resulting from the adopted Sustainable Development Policy and Social Business Responsibility.

Development of our activity and guidelines of sustainable development interpenetrate, building a new approach to the management of our organization.

We maintain the adopted Corporate Social Responsibility & Sustainable Development Policy, which takes into account the long-term business strategy in 4 pillars:

MARKET

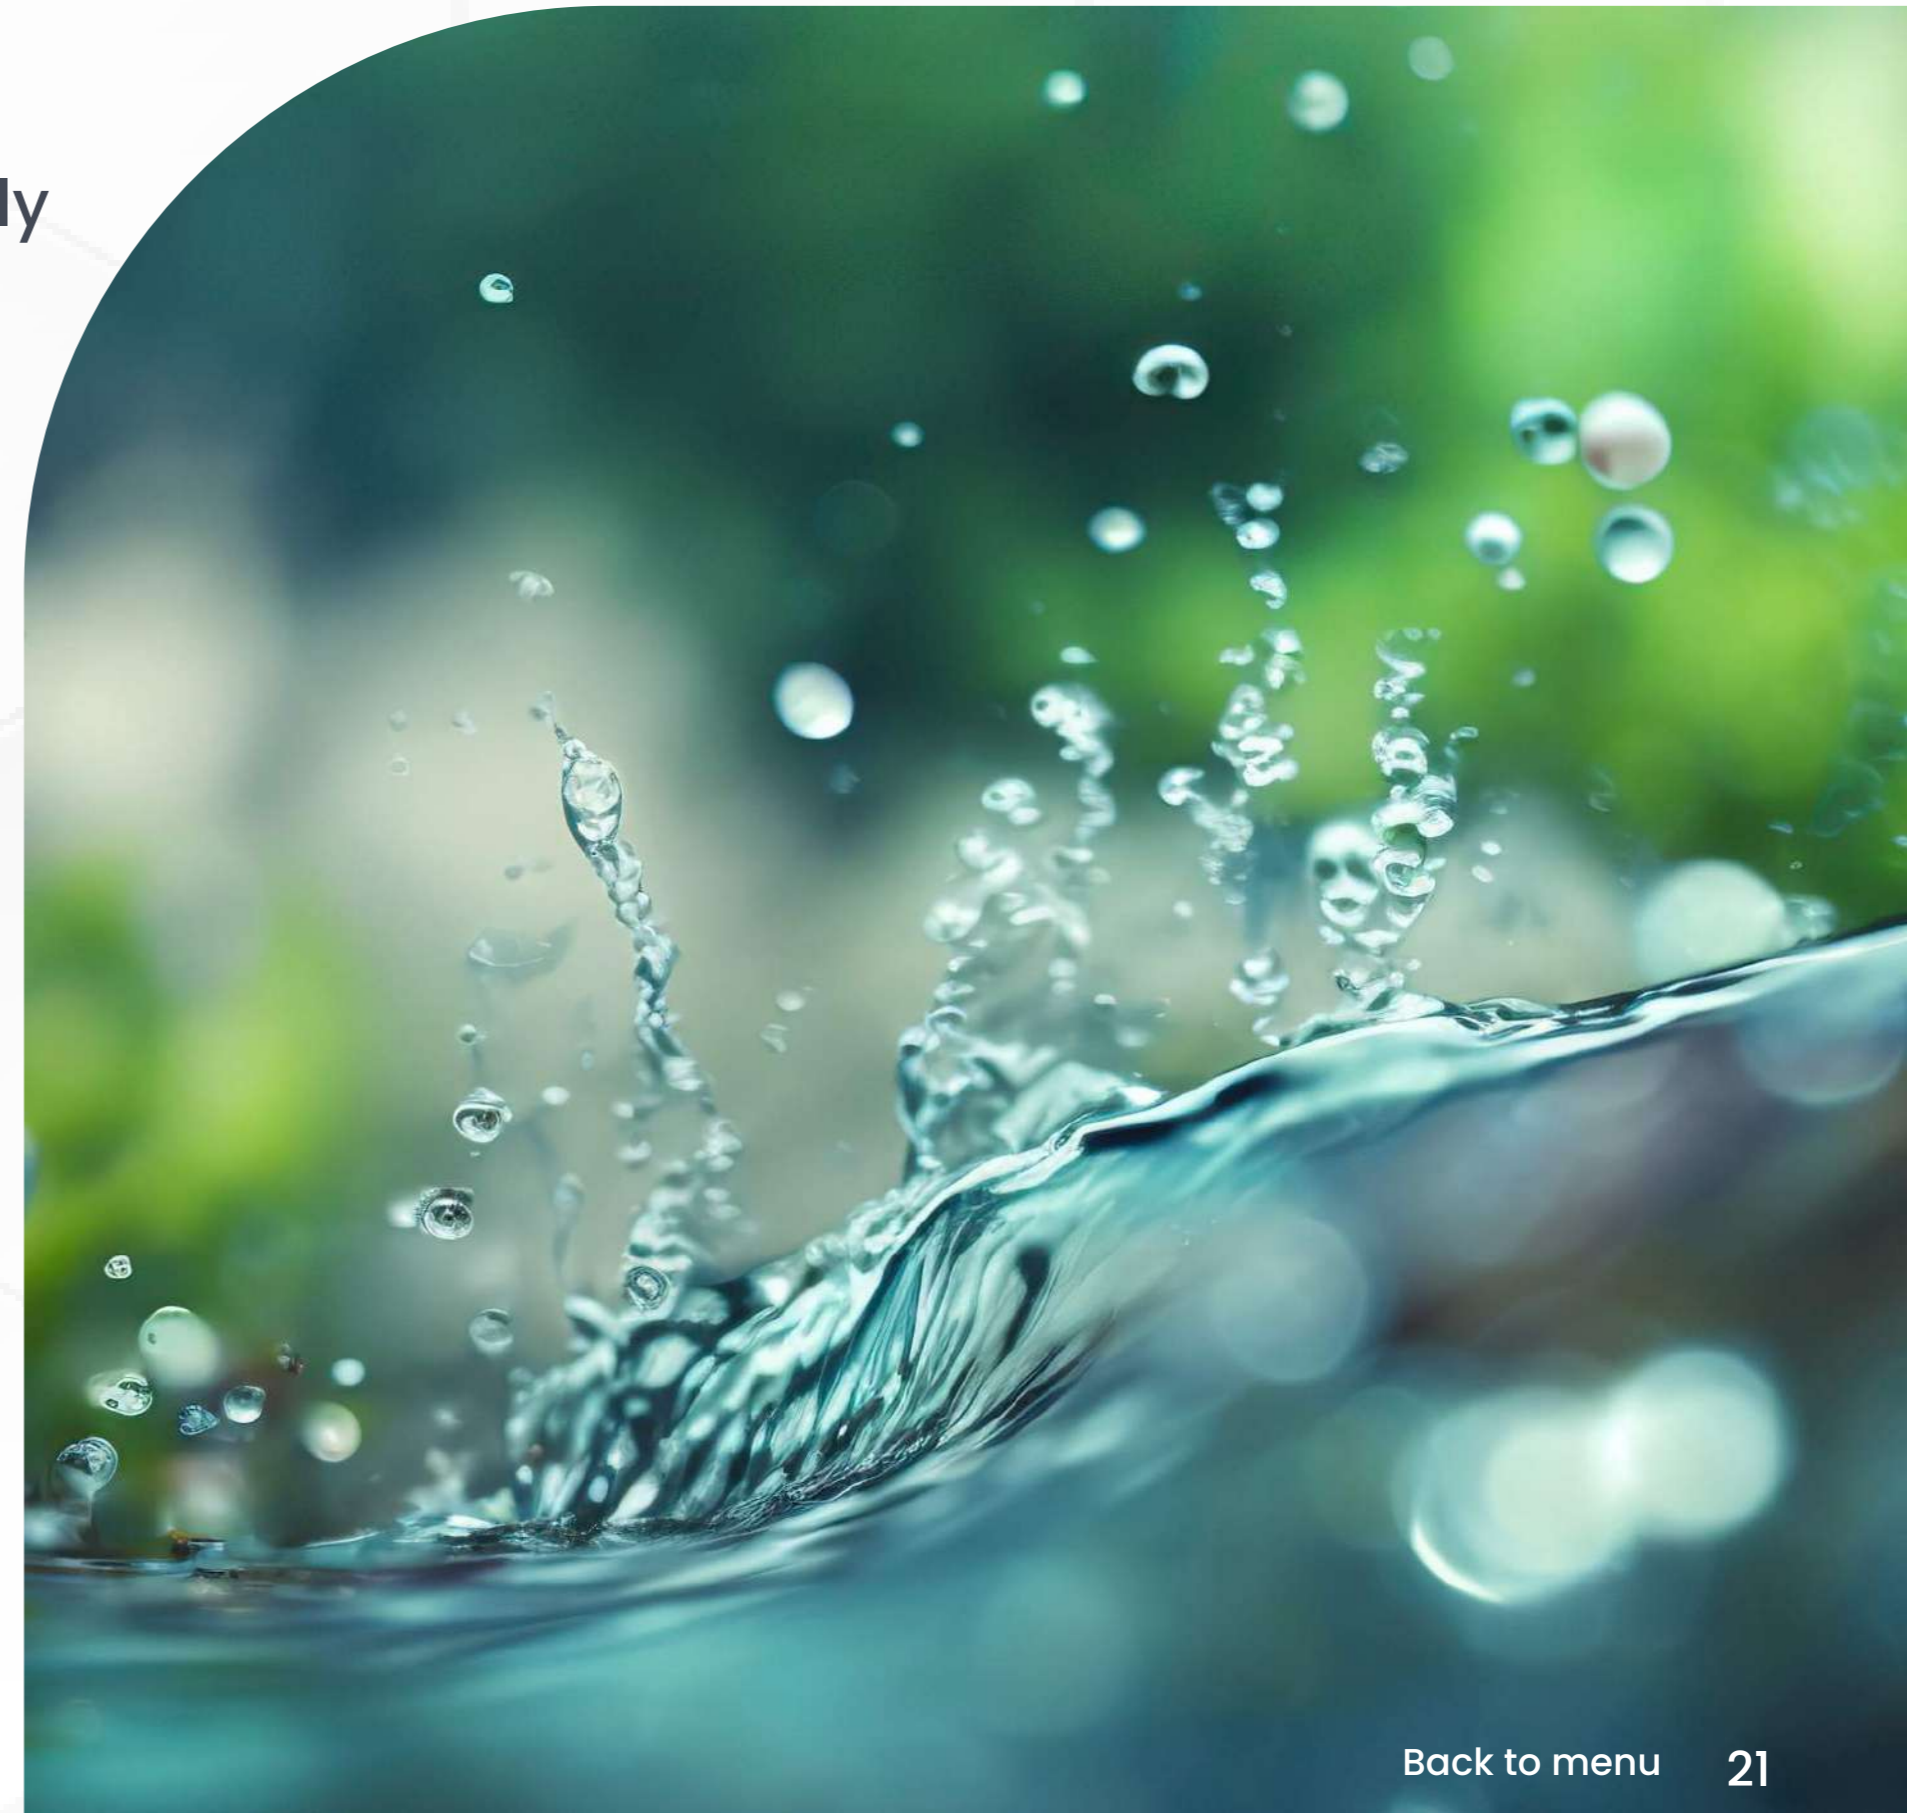

ORGANISATION

SOCIETY

ENVIRNOMENT

GREEN – CHEMISTRY OFFER

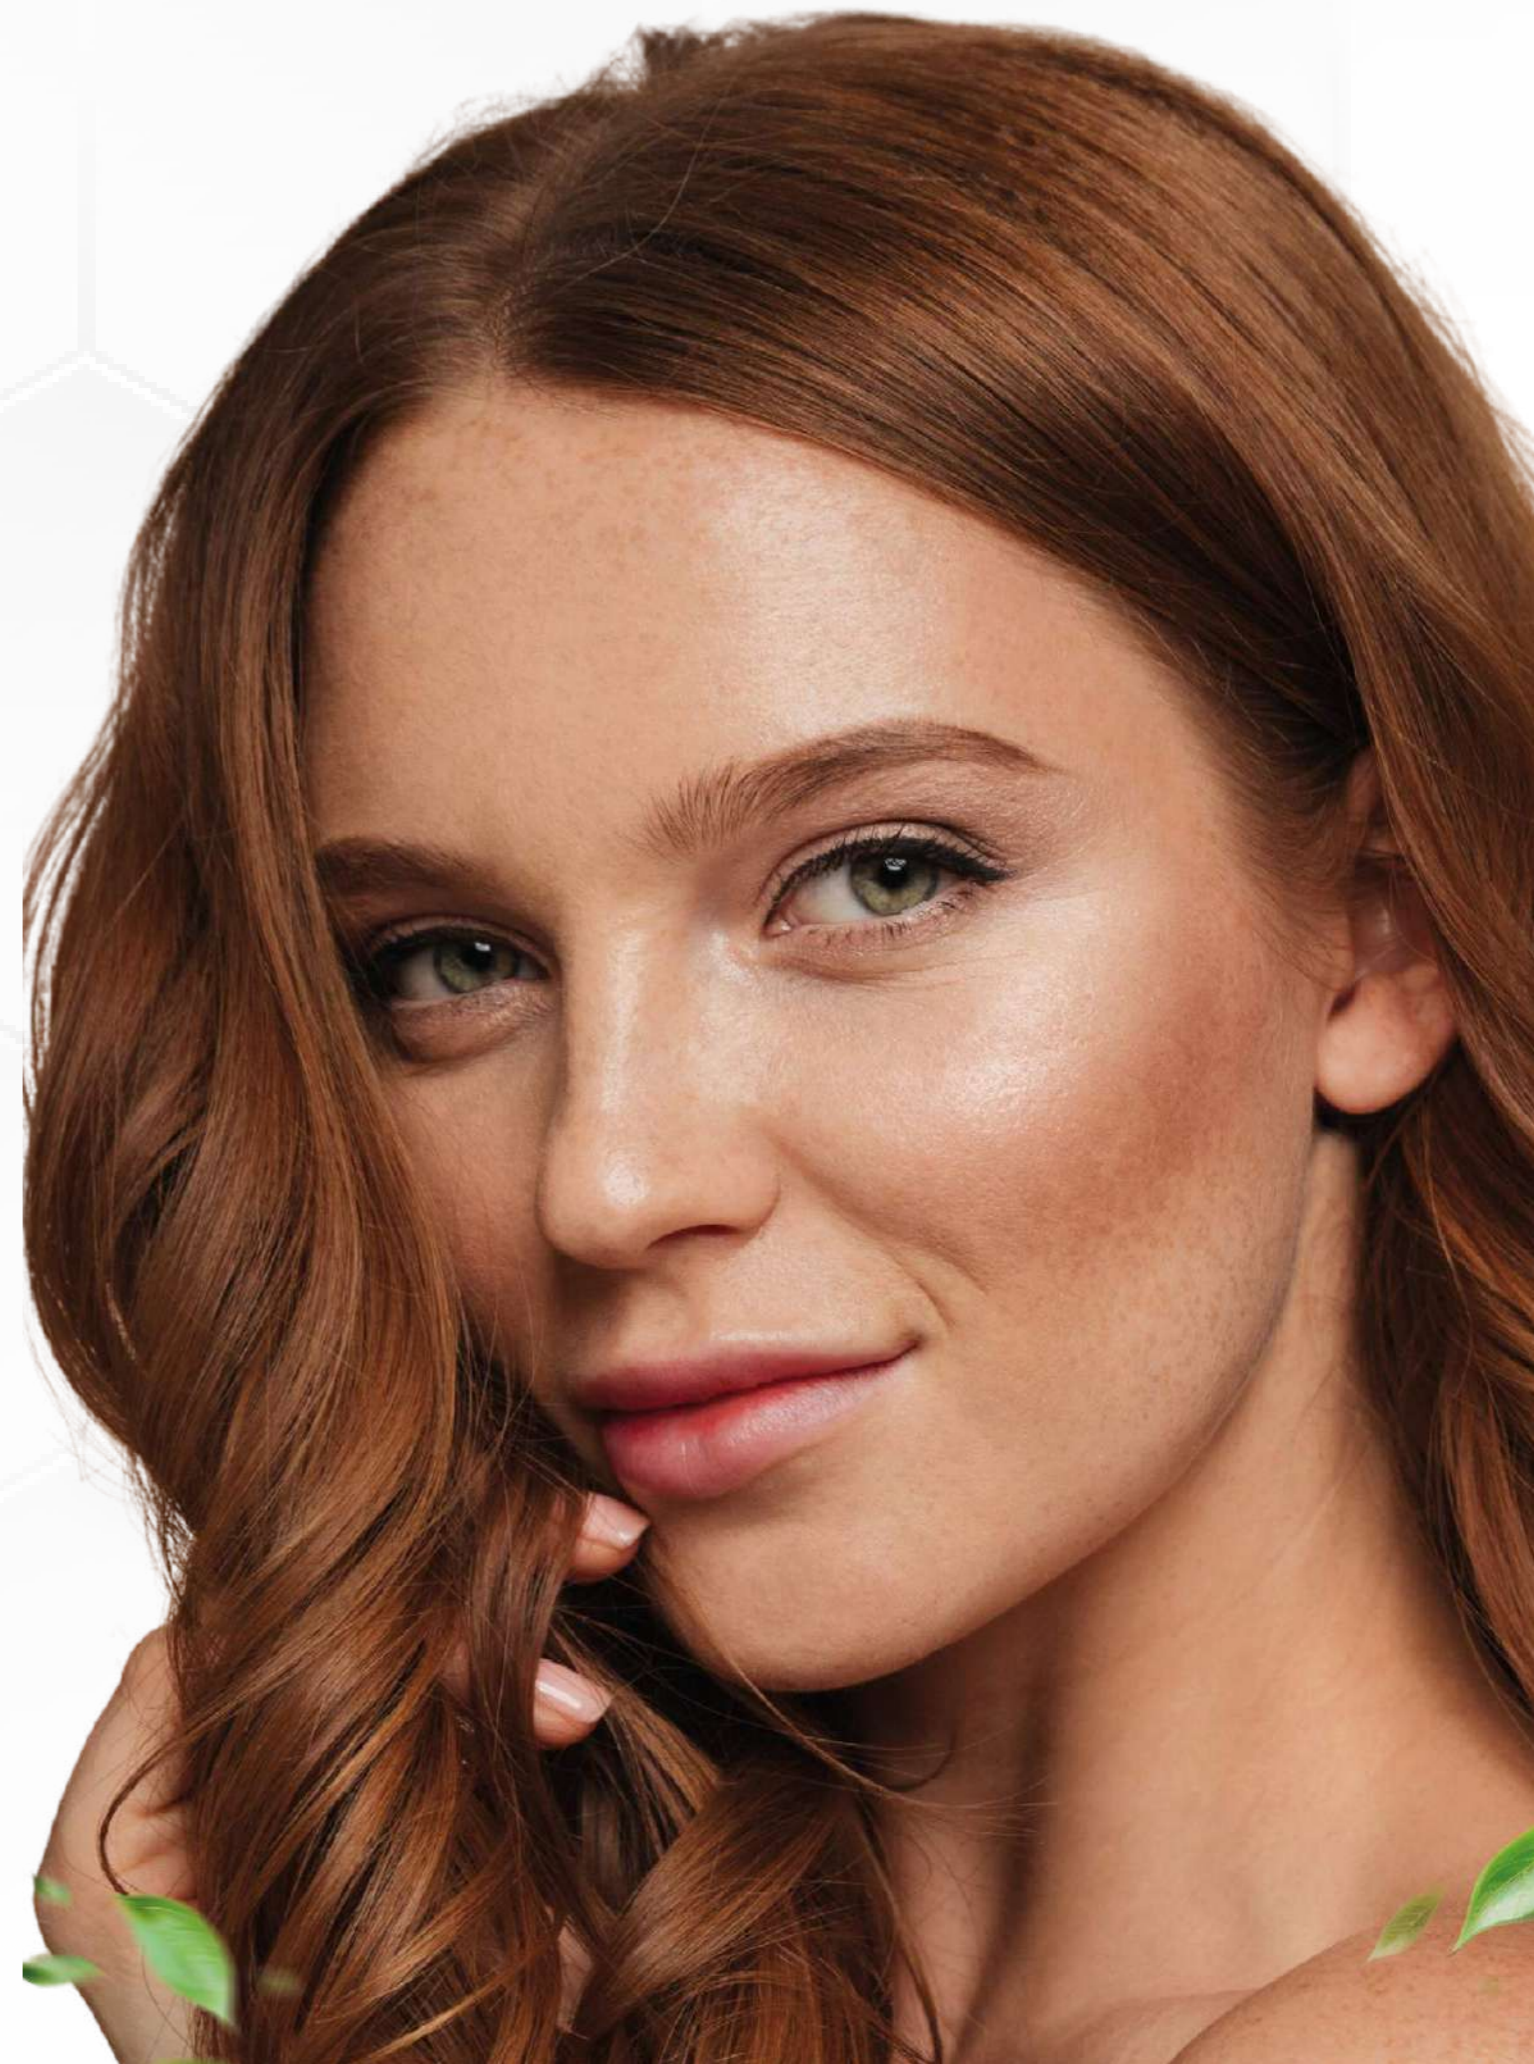

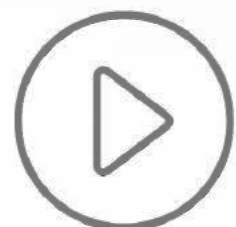

PCC EXOL – GREENLINE PRODUCTS

PCC Groups has been setting standards in effective planning of production processes and the use of high technologies for years. With our broad and diverse portfolio of PCC Greenline® products, we are also the leader in sustainable manufacturing.

In the face of challenges relating to sustainable production and consumption, one of PCC EXOL's priorities in the field of extending its portfolio is to develop a range of products that match the green chemistry trend. In times when the industry is increasingly aware and responsible for the environment and climate change, a particular focus on 'green' and ecological production becomes more important than ever before. Taking part in the green transformation of global chemical industry, PCC EXOL SA offers product in the GREENLINE
